Developing Skills in Medical Education

This course is designed for second year medical students interested in a career in medical education. In this selective, you will have the opportunity to interact directly with Dr. Braddock, Dr. Pessegueiro, and Dr. Napolitano to hear their thoughts about the current state of medical education. You will collaborate with Dr. Lee and Dr. Middlekauff to create and evaluate USMLE-style practice questions for the Block 2 curriculum. You will be exposed to innovative teaching methods including platform skills, flipped-classroom, and Khan Academy-style educational videos.

Learning Objectives:
1) Explore various careers and major challenges in medical education
2) Gain exposure to novel teaching modalities
3) Compose and evaluate USMLE-style test questions

Course Chairs:
Estebes Hernandez, M.D., Assistant Clinical Professor of Internal Medicine, Medical Education Fellow, Medical Education Interest Group Faculty Advisor, Clinical Performance Exam (CPX) Co-director

Daniel Kahn, M.D., Assistant Clinical Professor of Internal Medicine, Medical Education Interest Group Faculty Advisor, Clinical Performance Exam (CPX) Co-director

Ming Lee, Ph.D., Professor, Medical Education,

Additional Faculty: Holly Middlekauff, M.D., Jason Napolitano, M.D., Antonio Pessegueiro, M.D., Edward Lee, M.D., Dave Reuben, M.D.
