What is PAMS?
The Post Award Management System (PAMS) is a central web-based system that provides campus administrators with tools to facilitate effective and efficient financial management of sponsored awards from the start to the closing of funds. PAMS displays near real-time data from the financial system in a post award context for fund managers to review, edit, and approve financial activities on-line. PAMS allows fund managers to communicate the status of financial activities and financial deliverables in real time within a single system.
