BENEFIT COST TRANSFER (BCT)

Revised May 10, 2021

RESOURCE LINK

UCLA Central Resource Unit BCT

OVERVIEW

In general, benefits should be charged to the same FAU as the salary. BCTs are only required in instances where the <u>Sponsor or Donor does not allow</u> for certain benefits to be charged on the contract and grant (C&G) or private gift and endowment (G&E) fund. A BCT is the mechanism used to move the unallowable benefit expenses, while leaving the salary expenses on the original FAU charged.

Examples of unallowable benefits scenarios:

- Sponsor, such as AHA, does not allow <u>General & Employment Liability (GAEL)</u> insurance charges.
- Training grants, such as NIH T32, do not allow certain types of benefit charges which equate to a % of the total <u>Composite Benefit Rate</u> (annual unallowable % listed under CBR table).

Note: Technology Infrastructure Fee (TIF) is sometimes also disallowed by Sponsors/Donors, but TIF can be moved via the <u>NPEAR</u> system. Do not include TIF on the BCT template.

TIMELINE

The BCT should be the final transfer! Salary Cost Transfers (SCT) aka Direct Retros (DR) should not be processed after the BCT because it will cause the benefit expense to be out of sync. Therefore, it is a best practice to process the BCT at the <u>end of each budget period</u>, for the entire budget period, <u>when payroll is finalized</u> and no additional changes will be made. If you choose to process the BCTs at end of the fund's budget period, run the QDB reports based on the fund's budget period.

BCTs typically take a few days to process by CRU.

TOOLS NEEDED

- 1. DGSOM QDB Excel Add-ins
- 2. UCPath
- 3. <u>BCT Template Report</u>
- 4. BCT Request Form Template
- 5. BCT Submission Website

PROCESS OVERVIEW

 Determine <u>which benefit expenses</u> need to be removed by running QDB Summary by Sub Object

- 7. Complete the <u>BCT Request Form Template</u> using the data collected in the BCT Template Report.
 - a. Complete rows 1-13 as applicable, following instructions in the Instructions tab.
 - b. Hints for copying & pasting data from BCT Template Report onto BCT Request Form Template:
 - i. Create one workbook per employee (EE) & include all relevant pay periods.

- ii. **Copy & paste ALL benefit expense lines** in each pay period, not only the benefit lines you wish to remove.
- iii. After completing step 2 of Instructions tab, copy FAUs in Columns J-N, then paste using "Paste Values" to keep yellow highlighting intact.
 - Do the same for Columns T & AA, as applicable.
- iv. When processing **BCTs for NRSA grants** where you will be removing a % of the benefits rather than a 100% of a specific benefit expense line/amount, you must calculate the % to remove. See Instruction tab bullet #3, line 26.
 - Example: If CBR = \$100 on Row 19 & the unallowable % is 10%, then \$100 x 10% = \$10 is unallowable and must be removed.
 - Leave the \$100 line as copy & pasted in Columns A-T
 - Change amount listed in AA19 to \$90 on the original NRSA grant FAU
 - Copy information from Columns A-S (do <u>not</u> copy Column T with original \$ amount) on Row 19 which you want to split. Paste it in the 1st blank row at the bottom of the benefit data (A-T). Starting in Column U, list the unrestricted FAU you'd like to charge the \$10 and add \$10 to column AA of that same row.
