

I3T SEMINAR SERIES (2019-2020)

| DATE | SPEAKER | |
|---|--|---|
| <p>Tuesday, Oct 8, 2019</p> | <p>RESEARCH IN PROGRESS (RIP) <i>Overcoming Genetically Based Resistance Mechanisms to PD-1 Blockade</i> Davis Y Torrejon (Ribas Lab)</p> <p><i>A Unique Population of Resident Macrophages in Large Arteries</i> Gloria Hernandez (Iruela-Arispe Lab)</p> |  |
| <p>Wednesday, Oct 23, 2019 (CTSI)</p> | <p><i>T Follicular Helper (Tfh) CD4 T Cells and Germinal Center B Cell</i> Shane Crotty, Ph.D. Professor, La Jolla Institute of Immunology</p> |  |
| <p>Wednesday, Oct 30, 2019 (CTSI)</p> | <p><i>Innate Immune Receptors: Their Broad Roles in Regulating Adaptive Immunity, Inflammation, and the Microbiota</i> Jenny Ting, Ph.D. Distinguished Professor, UNC Chapel Hill</p> |  |
| <p>Tuesday, Nov 5, 2019</p> | <p><i>Cellular and Molecular Regulation of T-Cell Immunity</i> Lifan Liu, Ph.D. Associate Professor, UCSD</p> |  |
| <p>Tuesday, Nov 11, 2019</p> | <p>RESEARCH IN PROGRESS <i>Towards Engineered Pluripotent Stem Cell-Derived Non-Allogenic, Antigen-Specific T Cells</i> Patrick Chang (Crooks Lab)</p> <p><i>Isolation and Characterization of NY-ESO-1-Specific T Cell Receptors Restricted on Various MHC Molecules</i> Jiaji Yu (Yangs Lab)</p> |  |
| <p>Tuesday, Nov 19, 2019</p> | <p>Switzer Lecture Zhijian "James" Chen, Ph.D. HHMI Investigator Professor, UT Southwestern</p> |  |

| | | |
|----------------------------------|--|---|
| <p>Tuesday, Nov 26, 2019</p> | <p><i>Don't Blame the Immune System: Type 1 Diabetes as a Disease of Beta-Cells</i></p> <p>Bart O Roep Professor and Chair, City of Hope</p> |  |
| <p>Tuesday, Dec 10, 2019</p> | <p>RESEARCH IN PROGRESS: <i>Effector Natural Killer Cell Heterogeneity Using Single Cell Sequencing</i> Luke Riggan (O'Sullivan Lab)</p> <p><i>Anti and Pro-Tumorigenic Roles of IRF 1 Transcription Factor in the Immunogenic Control of Tumors</i> Prabhat Purbey (Smale Lab)</p> |  |
| <p>Tuesday, Dec 17, 2019</p> | <p><i>Immune Stromal Cross-Talk at Tissue Resident Lymphocytic Niches</i></p> <p>Ari Molofsky, Ph.D. Assistant Professor, UCSF</p> |  |
| <p>Tuesday, Jan 14, 2020</p> | <p><i>The Power of Human Mucosal Immunobiology Research: Novel Insights into the B Cell</i></p> <p>Sarabh Mehandru, M.D. Assistant Professor, The Mount Sinai Hospital</p> |  |
| <p>Tuesday, Jan 21, 2020</p> | <p><i>Immunological Mechanisms of Cancer Defense</i></p> <p>Ming Li, Ph.D. Scientist, Memorial Sloan Kettering Cancer Center</p> |  |
| <p>Tuesday, Jan 28, 2020</p> | <p><i>Loss of B Cell Tolerance After Stem Cell Transplant</i></p> <p>Stefanie Sarantopoulos, M.D., Ph.D. Associate Professor, Duke University School of Medicine</p> |  |
| <p>Tuesday, Feb 4, 2020</p> | <p><i>Understanding Immune Responses to Cancer from Single Cell Data</i></p> <p>Matthew Spitzer, Ph.D. Assistant Professor, UCSF</p> |  |

| | | |
|-----------------------------------|---|---|
| <p>Tuesday, Feb 11, 2020</p> | <p>RESEARCH IN PROGRESS: <i>IFN-mediated reprogramming of membrane cholesterol to evade bacterial toxins</i> Allison Chi (Bensinger's Lab)</p> <p><i>Disulfide-HMGB1 Drives Ischemia-Reperfusion Injury in Human Liver Transplantation</i> Rebecca Sosa, Ph.D. (Reed's Lab)</p> |  |
| <p>Wednesday, Mar 4, 2020</p> | <p>I3T EXCELLENCE AWARD <i>Accelerated Evolution of Microbial Proteins by Diversity-Generating Retroelements</i></p> <p>Jeff F. Miller, Ph.D. Professor, MIMG, UCLA</p> |  |
