

CAREER GUIDE

for health care
professions

A COMMUNITY THAT CARES

We are committed to providing education and mentorship to develop the next generation of ethnically and culturally diverse allied health professionals.

HEALTH CARE PROFESSIONS

The following are health care professions that students can pursue. Included are starting salaries, education needed and schools that offer these programs.

For more information or questions, e-mail CommunityEngagement@mednet.ucla.edu or visit uclahealth.org/communityengagement/allied-health-program

Administrative Clinical Care Partner

(Certified Nursing Assistant)

What they do

Administrative clinical care partners (CNAs) provide care and assistance to patients with limited physical ability enabling them to complete common activities, such as walking and bathing, on their own. CNAs also work with medical technology, like billing software, health information software and medical record charting software. CNAs often report to registered nurses (RNs) or licensed practical or licensed vocational nurses (LVNs).

Education needed

High School Diploma or GED
+ CNA Certification

UCLA Health starting salary
\$44,290/year or \$21/hour

Local schools offering this program

West Los Angeles College, Los Angeles Mission College, Los Angeles City College, East Los Angeles Occupational Center

Professional organizations

Local: California Nurses Association
nationalnursesunited.org/california-nurses-association
National: National Network of Career Nursing Assistants
cna-network.org

Child Life Specialist

What they do

Child Life specialists are pediatric health care professionals who work with children and families in hospitals and other settings to help them cope with the challenges of hospitalization, illness and disability. They provide children with age-appropriate preparation for medical procedures, pain management and coping strategies, and play and self-expression activities.

Education needed

Master's Degree,
600+ hours of Clinical
Internship, Certification

UCLA Health starting salary
\$67,000/year or \$32/hour

Local schools offering this program

Azusa Pacific University, Loma Linda University, University of La Verne

Professional organizations

Local: California Association for Child Life Professionals
calchildlife.org
National: Association of Child Life Professionals
childlife.org

Clinical Laboratory Scientist

What they do

Clinical laboratory science, also called medical technology, is the health profession that provides laboratory information and services needed for the diagnosis and treatment of disease. Clinical laboratory scientists perform a variety of laboratory tests, ensure the quality of test results, explain the significance, evaluate new methods and study the effectiveness of laboratory tests.

Education needed

Bachelor's Degree +
One Year of
Post-Baccalaureate
Certification, License

UCLA Health starting salary

\$101,000/year or \$52/hour

Local schools offering this program

CSU Dominguez Hills, CSU Los Angeles,
Loma Linda University, UC Irvine, UC San Diego

Professional organizations

Local: California Association for Medical
Laboratory Technology (CAMLT)

camlt.org

National: American Society for
Clinical Laboratory Science

ascls.org

Cytotechnologist

What they do

A cytotechnologist is a lab professional who evaluates patients' cell samples. They are trained to notice subtle changes to accurately detect pre-cancerous, malignant and infectious conditions. Cytotechnologists work very closely with a pathologist. They focus on a general variety of diseases found by using a microscope to detect abnormalities in human body cells.

Education needed

Bachelor's degree
Post-Baccalaureate
Certification from an accredited
cytotechnology program

UCLA Health starting salary

\$96,780/year or \$47/hour

Local schools offering this program

Loma Linda University, CSU Dominguez Hills,
Greater Los Angeles Cytotechnology Training
Consortium at UCLA

Professional organizations

National: American Society for Cytotechnology
asct.com

American Society of Cytopathology
cytopathology.org

Dietitian

What they do

A registered dietitian evaluates dietary requirements of patients and helps to develop personalized meal plans. Dietitians often conduct nutritional research and work with hospitals and cafeterias to help develop specific meal plans and promote nutrition through community outreach.

Education needed

Bachelor's Degree +
License, Certificate

Master's Degree Preferred +
License, Certificate

UCLA Health starting salary
\$73,000/year or \$37/hour

Local schools offering this program

Azusa Pacific University, CSU Long Beach,
CSU Los Angeles, CSU Northridge,
Cal Poly Pomona, West Valley College

Professional organizations

Local: California Academy of Nutrition and Dietetics
dietitian.org

National: National Academy of Nutrition and Dietetics
eatrightpro.org/ACEND

Emergency Medical Technician

What they do

An emergency medical technician (EMT) is trained for immediate response to 911 calls. As the first health care provider at the scene of emergency situations, an EMT's primary function is to assess a patient's condition and quickly determine the course of action necessary to stabilize the patient at the scene and while en route to a medical facility.

Education needed

High School Diploma or
GED + 160 hours of
Training Certification

UCLA Health starting salary
\$46,000/year or \$24/hour

Local schools offering this program

CSU Long Beach, College of the Canyons,
Pasadena City College, UCLA Prehospital Care

Professional organizations

Local: California Emergency Medical
Services Authority
emsa.ca.gov/emt

National: National Academy
of Emergency Medical Technicians
naemt.org

Genetic Counselor

What they do

A genetic counselor is a trained professional in medical counseling and genetics. They work with a physician to help patients understand their genetic risks, explore appropriate testing, and what genetic test results may mean for the patient and their family. They also educate the patients and their families about the effects of genetic conditions and common diseases.

Education needed

Master's Degree + experience in patient advocacy and counseling

UCLA Health starting salary

\$83,532.80/year or \$40/hour

Local schools offering this program

UCLA, UC Irvine, Keck Graduate Institute

Professional organizations

National: Society of Genetic Counselors (NSGC)
Accreditation Council of Genetic Counseling (ACGC)
American Board of Genetic Counseling (ABGC)
Southern California Genetic Counselors (SCGC)

Laboratory Assistant

What they do

Laboratory assistants perform a variety of job functions in support of the operation of a science laboratory.

Some of those functions include:

- Preparation of media for research
- Participation in the construction, assembly, testing and operation of laboratory equipment
- Preparation of tissues for microscopic examination
- Assisting in keeping up the cleanliness and maintenance of a laboratory

Education needed

Bachelor's Degree + extensive research experience during undergraduate preferred

UCLA Health starting salary

\$38,000/year or \$19/hour

Local schools offering this program

Any undergraduate institution with major in Laboratory Science or equivalent field

Professional organizations

National: The American Society for Clinical Laboratory Science (ASCLS)
ascls.org

Licensed Vocational Nurse

What they do

A licensed vocational nurse (LVN) provides basic nursing care under the direct supervision of a registered nurse or physician in the hospital or medical office setting. Typical nursing duties can include administering medications, drawing blood, preparing for procedures, monitoring patient health (i.e., measuring vital signs), providing basic bedside care to patients and starting intravenous fluids.

Education needed

High School Diploma or GED, Program Completion, License

UCLA Health starting salary

\$56,000/year or \$27/hour

Local schools offering this program

Concorde Career College, Glendale Career College, LA Trade Tech College, Marian College – Los Angeles, Maxine Waters Prep Center, Mission College

Professional organizations

Local: Board of Vocational Nursing & Psychiatric Technicians

bvnpt.ca.gov

National: National Federation of Licensed Practical Nurses

nalpn.org

Medical Assistant

What they do

Medical assistants complete administrative and clinical tasks in the offices of physicians, podiatrists, chiropractors and other health practitioners. Their duties vary with the location, specialty and size of the practice.

Medical assistants typically do the following:

- Take patient history and measure vital signs
- Help the physician with patient examinations
- Give patient injections or take EKGs, as directed by the physician
- Schedule patient appointments
- Prepare blood for laboratory tests
- Help patients feel at ease in medical settings

Education needed

High School Diploma or GED, Certification

UCLA Health starting salary

\$40,000/year or \$19/hour

Local schools offering this program

East San Gabriel Valley, Pasadena City College, Southern California Regional Occupational Center, Santa Monica College, UCLA Extension, West Valley College

Professional organizations

Local: California Certifying Board for Medical Assistants

ccbma.org

National: American Association of Medical Assistants (AAMA)

aama-ntl.org

Medical Coder

What they do

Medical coding is a specialized profession within the wider field of health care administration. Professional medical coders review the documentation contained in patients' medical records, then they translate the written documentation into universally accepted, industry-standard medical code for appropriate reimbursement of provided medically necessary services.

Education needed

Associate's Degree +
Certification

UCLA Health starting salary

\$64,000/year or \$33/hour

Local schools offering this program

Loma Linda University, Glendale Community College,
Santa Barbara City College, Santa Monica College,
East Los Angeles College

Professional organizations

National: American Academy of Professional Coders
aapc.com

Nurse Practitioner

What they do

A nurse practitioner (NP) is a registered nurse who has completed advanced education and training in the diagnosis and management of common and chronic illnesses. Nurse practitioners focus on individualized care by treating their patients and educating them about preventive health measures.

Education needed

Master's Degree (Master of
Science in Nursing), License

UCLA Health starting salary

\$139,000/year or \$71/hour

Local schools offering this program

Azusa Pacific University, CSU Dominguez Hills,
CSU Los Angeles, Charles R. Drew University,
UC San Francisco, UCLA

Professional organizations

Local: California Association for Nurse Practitioners
canpweb.org

National: American Association of Nurse Practitioners
aanp.org

Occupational Therapist

What they do

The role of an occupational therapist (OT) is to work with a client to help him or her achieve a fulfilled state in life through the use of purposeful activity or interventions designed to achieve functional outcomes that promote health, prevent injury or disability and that develop, improve, sustain or restore the highest possible level of independence.

Education needed

Master's Degree,
License, Certification

UCLA Health starting salary

\$92,000/year or \$47/hour

Local schools offering this program

CSU Dominguez Hills, Loma Linda University,
USC, West Coast University

Professional organizations

Local: Occupational Therapy
Association of California
otaonline.org

National: American Occupational
Therapy Association (AOTA)
aota.org

Occupational Therapy Assistant

What they do

Occupational therapy assistants (OTAs) provide occupational therapy services under the direction and supervision of a licensed occupational therapist. OTAs employ therapies, procedures and treatments to help restore sight, movement, brain function and productivity.

Education needed

Associate Degree from an
accredited OTA program +
License

UCLA Health starting salary

\$60,780/year or \$29/hour

Local schools offering this program

Azusa Pacific University, CBD College,
Concorde Career Center, Santa Ana College,
Stanbridge University

Professional organizations

National: American Occupational
Therapy Association (AOTA)
aota.org

Pathologists' Assistant

What they do

Pathologists' assistants (PAs) are highly trained health professionals who carry out their duties under the direction and supervision of a pathologist to make laboratories more efficient and cost effective. PAs prepare, examine and dissect anatomic specimens to help pathologists make clinical diagnoses.

Education needed

Master's Degree, Certification

UCLA Health starting salary

\$100,000/year or \$50/hour

Local schools offering this program

Loma Linda University

Professional organizations

National: American Association of Pathologists' Assistants
pathassist.org

Perfusionist

What they do

Perfusionists are vital members of the cardiovascular surgical team who are responsible for running the heart-lung (cardiopulmonary bypass) machine. They monitor a patient's vitals and then select appropriate equipment and technique to manage normal blood flow, body temperature, and other respiratory functions. Perfusionists work in the operating room with other members of the health care team.

Education needed

Bachelor's Degree +
Certification from Perfusion
Technology or Extracorporeal
Technology Program

UCLA Health starting salary

\$166,400/year or \$80/hour

Local schools offering this program

University of Arizona, Thomas Jefferson University,
Texas Heart Perfusion Program

Professional organizations

National: American Board of Cardiovascular Perfusion
abcp.org
American Academy of Cardiovascular Perfusion
theaacp.com
Accreditation Committee for Perfusion Education
ac-pe.org

Pharmacist

What they do

Pharmacists are health professionals who, in addition to dispensing prescription medication to patients, also provide information about the drugs that doctors have ordered for them. They explain doctors' instructions to patients so that these individuals can use the medications safely and effectively.

Education needed

Doctoral Degree

UCLA Health starting salary

\$147,290/year or \$71/hour

Local schools offering this program

Chapman University, Loma Linda University, UC San Diego, USC, Western University of Health Sciences

Professional organizations

Local: California Pharmacists Association
cpha.com

National: American Pharmacists Association
pharmacist.com

Pharmacy Technician

What they do

A pharmacy technician, also known as a pharmaceutical technician, is a health care worker who performs pharmacy-related functions, generally working under the direct supervision of a licensed pharmacist or other health care professional. Job duties include dispensing prescription drugs and other medical devices to patients and instructing on their use. They may also perform administrative duties in pharmaceutical practice, such as reviewing prescription requests with doctors' offices and insurance companies to ensure correct medications are provided and payment is received.

Education needed

High School Diploma or GED
+ License

UCLA Health starting salary

\$51,000/year or \$26/hour

Local schools offering this program

American Career College, CSU Dominguez Hills, CSU Los Angeles, LA City College, West LA College

Professional organizations

Local: California Board of Pharmacy
pharmacy.ca.gov

National: National Pharmacy Technician Association (NPTA)
pharmacytechnician.org

Phlebotomy Technician

What they do

The primary function of a phlebotomy technician is to obtain patient blood specimens by venipuncture or microtechniques. The phlebotomist aids in the collection and transportation of other laboratory specimens, and may be involved with patient data entry. A phlebotomy technician also draws blood for transfusions, donations and research.

Education needed

High School Diploma or GED
+ License

UCLA Health starting salary

\$49,000/year or \$25/hour

Local schools offering this program

Long Beach City College, Regan Career Institute,
UCLA Prehospital Care

Professional organizations

National: American Society
of Phlebotomy Technicians
aspt.org

Physical Therapist

What they do

Physical therapists (PTs) provide services that help restore function, improve mobility, relieve pain, and prevent or limit permanent physical disabilities of patients with injuries or disease. PTs work closely with patients and clients to restore, maintain, and promote their overall fitness and wellness for healthier and more active lifestyles.

Education needed

Doctoral Degree
Preferred + License

UCLA Health starting salary

\$92,000/year or \$47/hour

Local schools offering this program

Azusa Pacific University, CSU Long Beach,
CSU Northridge, Loma Linda University,
Mount St Mary's College, USC

Professional organizations

Local: California Physical Therapy Association
ccapta.org

National: American Physical
Therapy Association (APTA)
apta.org

Physical Therapy Assistant

What they do

Physical therapist assistants (PTAs) provide physical therapy services under the direction and supervision of a licensed physical therapist. PTAs provide care to patients with physical impairment through therapy and treatment to help patients restore functional activities in their daily lives.

Education needed

Associate's Degree + License

UCLA Health starting salary

\$60,780/year or \$29/hour

Local schools offering this program

Casa Loma College, Loma Linda University, Stanbridge College

Professional organizations

National: American Physical Therapy Association
apta.org

Physician

What they do

A physician is a doctor who is certified to practice clinical medicine. Physicians receive academic and specialized training at a college or university to prepare them for the responsibility of patient care. Upon graduation, a physician earns a medical doctorate (MD/DO). Physicians examine patients, perform and interpret diagnostic tests, counsel patients on health and well-being, refer patients to other doctors when necessary, and maintain responsibility for a patient's overall treatment and care.

Education needed

Doctoral Degree

Specialists might require additional fellowships and/or research experience

UCLA Health starting salary

\$126,000/year or \$60/hour

Local schools offering this program

Loma Linda University, UCLA, USC

Professional organizations

Local: California Medical Association
cmanet.org

National: American Medical Association
ama-assn.org/ama

Physician Assistant

What they do

Physician assistants are nationally certified and state licensed to practice medicine. They conduct physical examinations, diagnose and treat illnesses, prescribe medication, perform medical procedures, order tests and much more.

Education needed

Master's Degree +
1,000+ hours of medical
experience + License

UCLA Health starting salary

\$143,000/year or \$73/hour

Local schools offering this program

Charles R. Drew University, Loma Linda University,
Marshall B. Ketchum University, USC, Western
University of Health Sciences

Professional organizations

Local: California Academy of Physician Assistants
capanet.org

National: American Academy of Physician Assistants
aapa.org

Programmer Analyst

What they do

Programmer analysts are engineers and information technology technicians who support existing networks and information systems in a hospital. Some job functions include: networking, server management, database management and application programming. Programmer analysts use a variety of web-based programming languages and coding principles to help translate data into innovations in leading-edge biomedical applications.

Education needed

Bachelor's Degree
(Master's Degree Preferred)

UCLA Health starting salary

\$51,800/year or \$25/hour

Local schools offering this program

Any undergraduate institution with major in
Computer Science, Programming or Statistics

Professional organizations

National: Healthcare Information
and Management Systems Society
himss.org

American Medical Informatics Association
amia.org

Radiation Therapist

What they do

Radiation therapists are skilled medical professionals with specialized training in physics, radiation safety, patient anatomy and patient care. As part of the medical radiation oncology team, radiation therapists use machines called linear accelerators to administer radiation treatment that helps shrink and eliminate cancerous tumors. The therapist utilizes imaging technology, such as a computed tomography (CT), to help the physician precisely locate a tumor.

Education needed

Associate's Degree
(Bachelor's Degree Preferred)
+ License, Certification

UCLA Health starting salary

\$107,820/year or \$52/hour

Local schools offering this program

Azusa Pacific University, CSU Long Beach,
CSU Northridge, Loma Linda University, USC

Professional organizations

Local: The Southern California Society
of Radiation Therapists

csrt.org

National: The American Registry of Radiologic
Technologists

arrt.org

Radiologic Technologist

What they do

Radiologic technologists are the health care professionals who perform diagnostic imaging procedures, such as X-ray examinations, magnetic resonance imaging (MRI) scans and computed tomography (CT) scans.

Radiologic technologists typically do the following:

- Adjust and maintain imaging equipment
- Precisely follow orders from physicians on what areas of the body to image
- Prepare patients for procedures
- Protect the patient by shielding exposed areas that do not need to be imaged
- Position the patient and the equipment in the location needed to get the correct image
- Operate the computerized equipment to take the images

Education needed

Associate's Degree +
License, Certification

UCLA Health starting salary

\$112,000/year or \$56/hour

Local schools offering this program

Charles R. Drew University, Cypress College,
LA City College, Loma Linda University

Professional organizations

Local: California Society of Radiologic
Technologists

csrt.org

National: The American Registry
of Radiologic Technologists

arrt.org

Registered Nurse

What they do

Registered nurses (RNs) require a large base of knowledge to assess, plan and intervene to promote health, prevent disease and help patients cope with illness. When providing direct patient care, nurses observe, assess and record symptoms, reactions and progress, which provides the basis for care planning and intervention. They are health educators and advocates for patients, families and communities.

Education needed

Bachelor's Degree (Bachelor of Science in Nursing-BSN)
+ License

UCLA Health starting salary

\$108,000/year or \$55/hour

Local schools offering this program

CSU Long Beach, Mount St Mary's College, UCLA

Professional organizations

Local: California Board of Registered Nursing
rn.ca.gov

National: American Nurses Association
nursingworld.org

Respiratory Therapist

What they do

Respiratory therapy is the health care discipline that specializes in the promotion of optimum cardiopulmonary function and health. Respiratory therapists apply scientific principles to prevent, identify and treat acute or chronic dysfunction of the cardiopulmonary system. Their knowledge enables them to effectively assess, educate and treat patients with cardiopulmonary disorders. Respiratory therapists administer treatments to help patients with pneumonia, asthma and other diseases breathe easier. They also assist with operating ventilators.

Education needed

Associate's Degree
(Bachelor's Degree Preferred)
+ License, Certification

UCLA Health starting salary

\$84,000/year or \$43/hour

Local schools offering this program

American Career College, El Camino Community College, LA Valley College, Loma Linda University

Professional organizations

Local: CA Society for Respiratory Care
csrc.org

National: American Association for Respiratory Care
aarc.org

Social Worker

What they do

The field of social work utilizes social theories to understand human problems, to enhance people's lives and to improve society as a whole. Many who work in this field specialize in particular areas, such as aiding children, assisting those with life-threatening problems or helping people overcome addictions.

Social workers typically do the following:

- Act as advocates for their clients
- Educate clients and teach them new skills
- Link clients to essential resources within the community
- Protect vulnerable clients and ensure that their best interests are observed
- Counsel clients who need support and assistance
- Research social problems to look for remedies

Education needed

Master's Degree +
3,000+ hours, License

UCLA Health starting salary
\$69,000/year or \$35/hour

Local schools offering this program

Azusa Pacific University, CSU Dominguez Hills, CSU Long Beach, CSU Los Angeles, CSU Northridge, UCLA, USC

Professional organizations

Local: National Association of Social Workers – California
naswca.org

National: National Association of Social Workers
socialworkers.org

Speech-Language Pathologist

What they do

Speech-language pathologists assess, diagnose, treat and help to prevent speech, language, cognitive, communication, voice, swallowing, fluency and other related disorders. They work with people who cannot make speech sounds or cannot make them clearly, those with problems understanding and producing language, and those with cognitive communication impairments. They also work with people who have oral motor problems that cause eating and swallowing difficulties.

Education needed

Master's Degree + License

UCLA Health starting salary
\$104,000/year or \$53/hour

Local schools offering this program

CSU Long Beach, CSU Los Angeles, CSU Northridge, Chapman University, Loma Linda University

Professional organizations

Local: California Speech Language Hearing Association (CSHA)
cscha.org

National: American Speech-Language-Hearing Association (ASHA)
asha.org

Staff Research Associate

(Researcher)

What they do

Staff research associates (SRAs) provide administrative and technical support to researchers for clinical studies. Many SRA positions require specialized academic or a background in science, to perform or supervise experimental procedures in support of research and teaching.

Education needed

Bachelor's Degree
+ extensive lab experience
during undergraduate
strongly preferred

UCLA Health starting salary

\$50,000/year or \$26/hour

Local schools offering this program

Any undergraduate institution with major and/or
experience in clinical research

Professional organizations

National: Society for Clinical Research Excellence
socra.org

Surgical Technologist

What they do

Surgical technologists assist in surgical operations under the supervision of surgeons, registered nurses or other surgical personnel. They are members of operating room teams. Surgical technologists help maintain a sterile environment for patients undergoing surgery.

The main job duties are:

- Shaving and sterilization of patients
- Sterilization of operating rooms and all equipment
- Monitoring patients' vital statistics
- Making sure all equipment is functioning
- Handing the surgeon tools during procedures
- Stocking and restocking operating rooms before and after surgeries

Education needed

Associate's Degree or
Certificate Program

UCLA Health starting salary

\$57,000/year or \$27/hour

Local schools offering this program

Concorde Career College, Glendale Career College,
Simi Valley Career Institute

Professional organizations

National: Association of Surgical Technologists (AST)
ast.org

Ultrasound Technician

What they do

An ultrasound technician, often called a diagnostic medical sonographer or simply a sonographer, operates special equipment that uses sound waves to help diagnose patients' ailments. Ultrasound technicians may specialize in obstetric and gynecologic sonography, abdominal sonography, neurosonography, breast sonography, vascular sonography or cardiac sonography. They can work in a hospital or a community clinic.

Education needed

Associate's Degree
(Bachelor's Degree Preferred)

UCLA Health starting salary

\$106,000/year or \$54/hour

Local schools offering this program

CBD College, Loma Linda University,
Orange Coast College, Platt College

Professional organizations

National: American Registry for
Diagnostic Medical Sonography
ardms.org

WHERE TO STUDY

These educational institutions provide programs that will help students pursue jobs in the health care profession. For a full list of California-accredited programs, please refer to uclahealth.org/communityengagement/where-to-study
