				<u> </u>

For UC Subrecipients, change the \$25,000 to \$0. MTDC F&A calculates F&A only on the 1st \$25,000 of each subaward. But since the NIH considers the whole UC System as a single entity, UCs are not allowed to charge additional F&A on *any* portion of the subrecipients expenses. Therefore the full UC subaward costs are excluded from the F&A calculation.

\*For Detailed Budgets, these worksheet rows are provided only as a double check of the IDC Base calculations. The Subrecipient's entire detailed budget and justification must be included in the proposal submission.

\*For Modular Budgets, these worksheet rows are provided as a double check of the IDC Base calculations as well as provides the auto-fill information into the Prime/UCLA's Modular Budget page, Section A. See following page. No portion of the Subrecipient's detailed budget is included with the proposal submission.

Inclusion of Children  Other Research Plan Sections	If the Subrecipient PI has the Project Role of PD/PI along with the UCLA PD/PI (as Contact PI), this attachment must be included. A rationale for choosing a multiple PD/PI approach should be described. The governance and organizational structure of the leadership team and the research project should be described, including communication plans, process for making decisions on scientific direction, and procedures for resolving conflicts. The roles and administrative, technical, and scientific responsibilities for the project or program should be delineated for the PD/PIs and other collaborators. If budget allocation is planned, the distribution of resources to specific components of the project or the individual PD/PIs should be delineated in the Leadership Plan.
