What is S2S Grants?

SYSTEM-TO-SYSTEM

System-to-System (S2S) Grants

- Web-based solution used to prepare, validate, submit and store proposal applications to Grants.gov Agencies

- [What is Grants.gov](#)?

  - Centralized, online portal to find and apply for <u>federal</u> funding opportunities

  - Established in 2002 as a part of the President's Management Agenda as an E-Government initiative

  - Managed by DHHS under the governance of the Office of Management and Budget (OMB)

  - Currently houses > 1,000 grant programs

  - Proposals are submitted to and validated by Grants.gov >>> Then the federal Sponsor/Agency retrieves proposal from Grants.gov for further processing and/or validation

System-to-System (S2S) Grants

Benefits of S2S

- Provides autofill & data reuse capabilities

- Automatically tracks errors & warnings

- Easy navigation between forms

- Simplifies collaboration between preparers and reviewers

- Tracks proposal history

- Easy compilation of complete proposal PDF document prior to/after submission

- Stores proposal documents & attachments (including internal documents!)

- Tracks proposal submission status

When should S2S be used?

- Preparation for **all applications** that are eligible for submission using **Grants.gov** with the following exceptions
  - NSF – Research.gov
  - NSA – NSPIRES
  - NIH Complex Applications, such as Center Grants/Program Projects – NIH ASSIST
