Now accepting applications for 2019-2020 Program!

Deadline to Apply November 15th, 2018

GloCal is recruiting individuals interested in HIV research, non-HIV-related mental health research and other global health priority research areas such as women’s health, planetary health and non-communicable diseases. The fellowship is designed for: US doctoral students, professional students and postdoctoral fellows, as well as foreign postdoctoral fellows from low- and middle-income countries.

Eligibility:

• **US Postdoctoral fellows affiliated with UC**
  You are eligible to apply. If you are from a UC campus not part of the GloCal consortia (UCD, UCSD, UCSF, UCLA), then you must also establish a mentor from one of the four consortia campuses.

• **US Postdoctoral fellows not affiliated with UC**
  You are eligible to apply, but must establish a UC mentor (from one of the four GloCal consortia campuses) who is willing to appoint you in his/her department if accepted into the fellowship.

• **UC advanced doctoral students (PhD, DrPh, etc)**
  You are eligible to apply if you have advanced to candidacy by the time the fellowship begins.

• **UC Senior professional students (MD, DDS, DVM, etc)**
  You are eligible to apply if you have completed your basic science courses and one year of clinical training before you begin the fellowship.

**Undergraduate or Master’s Level Not Eligible!**

Fellowships begin in July 2019 and provide:

• 12 consecutive months stipend support

• Health insurance (for U.S. trainees)

• Modest research funding ($15,000)

• Travel costs to and from international field site

• Support for online courses

• A week-long orientation at the National Institutes of Health (NIH) in Washington, DC.

An opportunity for a 12-month mentored research fellowship, GloCal Health Fellowship has four principal components:

• **Research project** – 12 months, at 1 of 20 international partner sites

• **Mentorship** – a strong, interdisciplinary mentored research experience

• **Global health education** – online or onsite courses

• **Career development** – to attain short-term goals and transition to the next stage
