

Speaker Series

Guest Speaker

“Breakthroughs (And Hype) in Applying Proteomics and Multi-Omics to Complex Trait Genetics”

Evan G. Williams, PhD

Scientific Staff

Eidgenössische Technische Hochschule Zürich (ETH)
Zürich, Switzerland

Dr. Evan G. Williams works in the group of Ruedi Aebersold at the Eidgenössische Technische Hochschule Zürich (ETHZ) on the generation of multi-omics datasets in large and genetically-variable populations, with a particular focus on proteomics, batch effect mitigation, and hypothesis discovery.

Wednesday, January 16, 2019

3:00pm – 4:00pm

Gonda Building 1st Floor Conference Room, 1357

Light snack will be provided

To meet with Dr. Evan G. Williams, please contact:
Dr. Jake Lusi; rosachen@ucla.edu

To receive seminar notices, contact Charina McDonald (cmcdonald@mednet.ucla.edu)
