Job Aid - Create Funding for Positions with Salary Caps or Involve Multiple Components of Pay at UCLA

Use this task to add funding for a filled, single-headcount position using the Salary Cap / MCOP Funding Worksheet.

Use the Salary Cap / MCOP Worksheet, which is accessible from the Funding Entry page to set up complex funding, such as funding subject to salary cap rates or positions with multiple components of pay.

Considerations:

- **Effective Dates** – Use Effective Dates to indicate when Fund Sources are changing or need to change. These dates can be in the future though it is recommended to not plan to far in the future should the Funding need to change. Once the Future Date is reached, UCPath automatically begins using the Fund Sources effective on that date.

- **Fund Ending Dates** – The use of the Fund End Date can be used but can cause charges to the department Suspense/Default accounts when there is not another effective dated row in place when the End Date is reached. For example, if a fund source has a Fund End Date of 9/30/2020 then there should be fund source(s) with an Effective Date of 10/1/2020, otherwise the Suspense/Default accounts will be charged.

- **Begin Date and End Date** – These fields can be used to plan out the entire year for Multiple Components of Pay and Salary Cap.

- **Blank Earn Codes** (Catch All) – Used to identify the Fund Source(s) that will always be charged UNLESS a different Fund Source should be charged for a specific set of Earnings.

- **Over-The-Cap** – Use the OTC Indicator of “Y” to designate the Fund Source(s) that are to be charged when salary exceeds the Cap. There are no Earning Codes used to designate over-the-cap, only the indicator of “Y”.

Steps:

**Navigation**: PeopleSoft Menu > Set up HCM > Product Related > Commitment Accounting > UC Customizations > Funding Entry
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 1.   | When you navigate to the **Funding Entry** page, the system displays the **Find an Existing Value** tab. Begin the steps for entering funding on the **Add a New Value** tab.  
Click the **Add a New Value** tab. |

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 2.   | Use the fields on the **Add a New Value** tab select the appropriate position and fiscal year for which you want to request position funding.  
Notice that in this example, the **Set ID and Fiscal Year** field values default. You can accept the default values or update them as necessary. |

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 3.   | Enter the Department into the **Department** field.  
**NOTE:** You can use the Prompt Button that appears next to the field to see all the departments you have access to. |

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.</td>
<td>Select <strong>Position</strong> from the <strong>Budget Level</strong> Field.</td>
</tr>
</tbody>
</table>
5. Search using **Position** or **Employee**.

5a) If you know the position you can enter the **Position Number** or use the **Position Prompt button** to locate the position. Click the hyperlink for the Position.

5b) If you know the **Employee** you can click the **Position Prompt button** that appears to the right of the **Position** field to see the positions with the Employee Name and Employee Number. You can then search for the employee and subsequently select the Position for that Employee.

6. Click the **Add** button.

7. The system displays the **Funding Entry** page.

The position details appear at the top of the page and the **Request Status** is **In Progress**. After you save and submit the position funding request, the system will display the status of **Pending Approval**.

8. The **Job Data Snapshot** section displays the incumbent employee's job details over two tabs: **Job details 1** and **Job details 2**.
Step | Action
--- | ---
9. | The **Funding Entry** page displays the **Salary Cap / MCOP Worksheet** link *only* for a filled position with a single incumbent and there is a Capped Fund.

If you attempt to enter funding on the Funding Entry page instead of the Salary Cap/MCOP Worksheet and the employee’s salary is above the cap, the system displays an error and you cannot save the data. You **Must** use the **Salary Cap / MCOP Funding Worksheet**.

If the employee’s salary is below the cap, the system displays a warning message. You can decide whether to use the **Salary Cap / MCOP Funding Worksheet** or the **Funding page**.

10. | Click the **Salary Cap / MCOP Funding Worksheet** link.

11. | The **Compensation Data Snapshot** section displays the incumbent employee's compensation data from Job Data, including **Salary Plan**, **Salary Grade**, **Step**, **Comp Frequency** and **FTE**. This is view-only data to help you complete the MCOP worksheet.

The **Pay Component** detail defaults from the employee's job earnings distribution (JED) from Job Data, including the earnings codes, and the monthly and annual dollar amount breakdowns, and the breakdown percentages as a percentage of the Total UC Salary.

**NOTE:** Contact your HCM Initiator in order to make changes or adjustments to the Compensation Data.
Step 12. Use the Default Funding Profile section to set standard over-the-cap (OTC) fund sources. If the dollar amount that is part of the employee's total UC salary is not fully allocated on the Salary Cap / MCOP Worksheet, the system uses this data to create funding lines for any pay components.

For default funding you should receive prior department approval. **There should be No restricted funds in the Default funding.**

Step 13. Enter the **Effective Date** into the Effective Date field.

UCPath uses effective dates to store historical, current, and future information. Effective dates enable you to identify when Funding is to be used or was in effect.

**Future Effective Date** - If the Effective date is in the Future then the Funding will only be used once that future date becomes the Present date.

**Past Effective Date** - If the Effective Date is in the Past then UCPath considers that as being effective now unless there is another Effective Date that takes its place.

**Current Effective Date** - If the Effective Date is Today then Funding will use this date to apply Funding on any subsequent Payrolls until the next Effective Date, if one exists.

Step 14. The **ERN Cd** should be blank for the “catch all” row. Leave the Earn Code blank unless you need to have dollars charged to a specific earn code. The “catch all” row is used to designate the Fund Source that will be charged for all earnings up-to-the-cap unless you designate an Earn Code.

**NOTE:** UCPath will require at least 1 row where the ERN Cd is blank in order to assign the
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>15.</td>
<td>Select No from the OTC Indicator field. No indicates the &quot;catch all&quot; overage funding source.</td>
</tr>
</tbody>
</table>
| 16.  | Enter the appropriate funding values:  
Location (Required) = 4  
Account/CC (Required) = Account and Cost Center are combined in UCPath  
FS Department (Derived) = Will default based on the Account and Cost Center provided  
Fund (Required)  
Project (Optional)  
Sub (Optional) = The Sub will always be 00 for Faculty and Academics. Staff will default as 01. There are some academics that could be 02. Under that situation select 02 so that the system will override Sub 00 with Sub 02. |
<p>| 17.  | Enter the Distribution Percentage for EACH row. The sum of the Distribution Percentage must sum to 100% for each Earn Code and OTC indicator combination. For example, if you have 2 rows for the &quot;catch all&quot; with OTC Indicator of “No” then the sum of those 2 rows would need to equal 100% so that UCPath can distribute all 100% of the earnings to the fund sources. |
| 18.  | Insert an additional row to set up the over-the-cap (OTC) funding source. Click the Add a new row button that appears to the right of the row just updated in prior steps. |</p>
<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>19.</td>
<td>Click the button to the right of the <strong>OTC Indicator</strong> field and select <strong>Yes</strong>. This designates the data you enter as the over-the-cap (OTC) funding source.</td>
</tr>
</tbody>
</table>
| 20. | Enter the appropriate **funding** values:  
**Location** (Required) = 4  
**Account/CC** (Required) = Account and Cost Center are combined in UCPath  
**FS Department** (Derived) = Will default based on the Account and Cost Center provided  
**Fund** (Required)  
**Project** (Optional)  
**Sub** (Optional) = The Sub will always default to 00 for Faculty and Academics. Staff will default as 01. There are some academics that could be 02. Under that situation select 02 so that the system will override Sub 00 with Sub 02 |
| 21. | Enter the **Distribution Percentage** for EACH row. The sum of the **Distribution Percentage** must sum to 100% for each Earn Code and OTC indicator combination. For example, if you have 2 rows for the OTC Yes row then the sum of those 2 rows would need to equal 100%. |
| 22. | If necessary, scroll down to display the **Funding Distribution Worksheet** section. |
| 23. | In the **Funding Distribution Worksheet** section enter the **Begin Date**. The Begin Date identifies when the funding is to go into effect. If there are multiple Begin Dates then UCPath will create multiple Effective Dates to ensure that only the funding that is in effect at that time is used. |
| 24. | Indicate when the funding will end using the **End Date** field. |
| 25. | Leave the **ERN Cd** blank unless you need to have dollars charged to a specific earn code. |
26. Enter the appropriate fund sources, including Location, Account/CC, Fund, Project and SUB (FAU). NOTE: The Sub will always default to 00 for Faculty and Academics. Staff will default as 01. There are some academics that could be 02. Under that situation select 02 so that the system will override Sub 00 with Sub 02.

If the dollar amount that is part of the employee's total UC salary (Visible in the Compensation Data Snapshot section) is *not* fully allocated on the Funding Distribution Worksheet, the system uses the Funding from the Default Funding Profile section to create funding lines for the unallocated amounts.

27. If necessary, scroll right to display additional fields and page options.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>28.</td>
<td>You can enter a value in only one of the following fields: <strong>Total Allocated Amount</strong>, <strong>Percent of Pay</strong> or <strong>Percent of Effort</strong>. The system derives the value for the other two fields and those fields are not editable. If necessary, you can delete the value in the field for which you entered a value to prompt the system to make the other fields editable again. It is recommended to enter the Total Allocated Amount and let the system calculate Percent of Pay and Percent of Effort.</td>
</tr>
<tr>
<td>29.</td>
<td>If you are entering funding distribution for a capped fund, the system defaults the <strong>Cap Type</strong> and the <strong>Cap Rate (Annual)</strong> values from the Type of Fund.</td>
</tr>
<tr>
<td>30.</td>
<td>Select the <strong>Cap Rate (Annual)</strong> from the list of values by clicking the Prompt button next to the Cap Rate (Annual) field. The Cap Rate should be the rate that is in effect at the time of the award.</td>
</tr>
</tbody>
</table>
31. Continue to enter the necessary funding distribution detail for the selected position. You can insert additional rows as necessary by clicking the **Add a new row** button.

32. When you are finished entering funding distribution details in the **Funding Distribution Worksheet** and **Default Funding Profile** sections, click the **Funding Distribution Preview** button.

33. The system displays the funding distribution preview data.

The data on this page is view-only, except for Location-specific chartfields fields for the OTC funding lines.
### Step 34
The preview displays fiscal year funding distributions broken down by each pay period from the **Salary Cap / MCOP Worksheet** and includes any OTC rows, if applicable.

### Step 35
An **OTC Indicator** value identifies whether a distribution line is the up-to-the-cap row or an over-the-cap row.
- Uncapped rows do not have an OTC Indicator (field is blank).
- An OTC Indicator starting with **N** is the up-to-the-cap row.
- An OTC Indicator starting with **Y** is the over-the-cap row.
- An OTC value with **-OTCXXX** at the end links the OTC row to the capped funding source line that is responsible for OTC funding line.

### Step 36
If necessary, scroll right to display additional fields and page functions.

### Step 37
If any of the funding lines are inaccurate, click the **Return to the Salary Cap/ MCOP Worksheet** link to return to the worksheet, make necessary changes, and regenerate the preview.

### Step 38
To preview the distributions for the year, click the **FAU Monthly Preview** button. The system generates an Excel spreadsheet, which you are prompted to open or save.

**NOTE:** Be sure to turn off Popup Blocker otherwise the excel file will not open.

### Step 39
If everything is correct then it is time to load the Funding from the worksheet into the main funding entry page, click the **Submit to Funding Entry** button.

### Step 40
The system copies the funding rows from the worksheet to the **Earnings Distribution** section of the **Funding Entry** page.
### Step 41

To attach a supporting document, click the **Add Attachment** button, search for and select the appropriate file.

If you add an attachment, the options for viewing or deleting the attachment are available. Only the user who adds an attachment is able to delete it from the transaction. After the transaction is fully approved, attachments can no longer be added or deleted, but are viewable by any user with access to the page/transaction.

### Step 42

Use the **Initiator Comment** field to enter the reason for the request to help your approvers make an informed decision.

### Step 43

When are you finished entering data, click the **Save** button. You can also use the Save button to save your work in the event you need to review and submit at a later time.
Step 44. If there are no errors, the system displays the Submit button. When you are ready to submit the funding entry for review and approval, click the Submit button.

Step 45. After you save the transaction, the system displays the Cancel button at the top of the page.

After you save a funding entry transaction, if necessary, you can cancel it before submitting it for review and approval.

Step 46. The system automatically assigns the transaction a unique Request ID number.

If necessary, you can access and submit the funding entry transaction for review and approval at a later time using the Position, Department or the Request ID.

Step 47. After you submit the request, it's automatically routed to the appropriate approver(s).
Step 48. In the page header, the system updates the **Request Status** from **In Progress** to **Pending Approval** and also displays the **Submitted on** date.

After final Location approval the system updates the **Request Status** and **Record Status** to “**Saved to Database**”.

---

Step 49. You have added funding for a filled, single-headcount position using the **Salary Cap / MCOP Worksheet**.

End of Procedure.
Appendix – Example 1 of a Position with NSTP

COMPENSATION DATA
This section gives you the breakdown of the NSTP earn codes and annual amount.

REG = NCB (19900), NCC (Regular Based Salary – did not use), NCG (regular scale cap gap supplement – did not use) = NCB in UCPath

NNC (non NIH cap funds), NCU (NIH Funds), NGU (Cap Gap) = NNC in UCPath

![Compensation Data Snapshot](image1.png)

Figure 1 Compensation Data Snapshot

DEFAULT FUNDING PROFILE
NIH CAP GAP – Put in unrestricted/private gift/endowment /industry FAU under default funding profile and select “Yes” under the OTC Indicator. Flat rate will be paid automatically. If multiple accounts will be used for the NIH CAP GAP, add FAU line and allocate distribution accordingly.

![Default Funding Profile](image2.png)

Figure 2 Default Funding Profile
FUNDING DISTRIBUTION WORKSHEET
Add all funding from the NSTP DOS Code spreadsheet based on Begin and End Date. Enter under the Total Allocated Amount column, the total dollar amount to be charged to the specific FAU. The percent of effort will equate to 100%. Note that the percent of pay will not add up to 100% if you are using NIH Cap Funds.
