5:30 - 6:00p
David Geffen School of Medicine, Equity and Diversity Inclusion Final Remarks

For questions regarding our AMEC schedule, please contact DGSOMEDI@mednet.ucla.edu
Recruitment

GME Open House for Equity, Diversity & Inclusion
Each January, the Office collaborates with our medical school’s Office of Equity and Diversity Inclusion to host returning applicants interested in learning more about EDI efforts across our institution.

Visiting Student Scholarship Programs
The Departments of Emergency Medicine, Internal Medicine, Neurology, Pediatrics, Psychiatry, and Vascular Surgery offer financial and logistical support for students to complete a visiting elective or subinternship. See additional details on the reverse side.

Retention

Community Building
To foster a supportive environment throughout training and strengthen relationships between housestaff and faculty from groups traditionally underrepresented in medicine, community mixers and dinners are held throughout the year along with numerous other EDI events on campus.

Learning Together
The GME Subcommittee on Equity and Diversity Inclusion provides a space for programs to coordinate educational opportunities. This includes sponsoring our annual Health Equity Week of activities and talks aimed at exploring issues relating to equity and advocacy.

Reaching Back

Medical Student Mentoring
URM residents and fellows of various programs organize quarterly mentorship discussions with URM student groups focusing on issues and obstacles students may face in training.

Road to Residency Conference
The GME Office hosts an annual conference for 1st-4th year URM medical students from West Coast region schools to learn how to prepare for and navigate the residency application process.

Our Underserved Community
At UCLA’s main clinical sites, approximately half of the inpatient census is publicly insured or uninsured, with just over 25% of all admitted patients at Ronald Regan Medical Center having Medicaid.

Visiting Student Scholarship Programs at UCLA

Our visiting student programs are designed to provide students from groups underrepresented in medicine the opportunity to experience first-hand the life of a resident at UCLA. Students may complete a clerkship in one of six departments: Emergency Medicine, Internal Medicine, Neurology, Pediatrics, Psychiatry, or Vascular Surgery. Visiting students are fully integrated into the clinical and educational opportunities offered to all students, with opportunities to meet with program leadership, faculty, and residents for mentoring and discussion of career interests. Financial support is included to offset travel, housing and living expenses. Applicants must have completed core clerkships and be in good academic standing at an accredited U.S. medical school. For additional details, please see “Scholarships” section of the website below:

https://medschool.ucla.edu/current-us-visiting-students

COVID19 Update: Please check with individual program below for changes to deadlines for 2020-2021
